gabrielmirallesalvarez@gmail.com

Full-Stack Developer with experience in web application development using technologies such as JavaScript, MongoDB, and Docker. Specialized in agile work environments (Scrum), focusing on collaboration and implementing new features to enhance user experience. Motivated by innovation and constantly learning new technologies, I am looking for a team where I can further develop my technical skills and contribute to challenging projects.

Professional Experience

Full-Stack Developer at *Gnuinux Software* (January 2023 - February 2024)

Developed web applications for an international client in the vehicle rental sector. Key responsibilities include:

- Developing and optimizing features using technologies like JavaScript, MongoDB, GitHub, Git, and Docker.
- Problem-solving and API testing with Postman in an agile (Kanban) environment.
- Collaborating closely with a team to implement new solutions and enhance web platform performance.

IT Consultant at *Alten Spain* (July 2022 - October 2022)

Performed key functions as an IT consultant, working with additional technologies:

- Learning and implementing Spring Boot in Java-based environments.
- Participating in system integration and designing scalable solutions for clients.

Front-End Developer (Intern) at *NTT DATA* (March 2022 - June 2022)

During my internship, I gained experience in front-end web platform development:

- Improved interface performance using Angular, JavaScript, and TypeScript.
- Conducted testing with Postman and managed version control with GitHub in a collaborative environment.

Education

Web Application Development at *IES Pere Maria Orts* (2020 - 2022)

Higher Technical Degree focused on creating and optimizing web applications. Gained expertise in technologies such as JavaScript, Angular, and NoSQL databases like MongoDB. Specialized in full-stack development, including front-end and back-end practices.

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Java, C#
- **Frameworks and Libraries:** Angular, Spring Boot, React
- **Databases:** MongoDB, MariaDB
- **Development Tools:** Git, GitHub, Docker, Postman
- **Methodologies:** Agile, Kanban
- **Languages:** Spanish (native), Valencian (native), English (intermediate)
