## Profile

Full Stack Developer. I am currently building Brivel, an open source app for Android, iOS and the web with a shared Kotlin Multiplatform core. Before that, almost 2 years of professional experience at technology consultancies (Alten, NTT DATA) and on a product team (Gnuinux Software) with JavaScript, Angular, Node.js and MongoDB, working with agile methodologies. Looking for a remote or hybrid development role.

## Technical Skills

**Frontend:** Angular, React, Next.js, Vite, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
**Backend:** Node.js, Python (FastAPI), Java (Spring Boot, basic), C# (basic)
**Mobile:** Kotlin Multiplatform, Android (Jetpack Compose), iOS (Swift, SwiftUI)
**Databases:** MongoDB, MySQL, Cloudflare D1 (SQLite)
**DevOps and Tools:** Docker, Docker Compose, Git, GitHub, GitHub Actions, Cloudflare Workers, Linux, Postman
**Methodologies:** Agile (Kanban)
**Languages:** Spanish (native), Valencian (native), English (intermediate)
**Other:** Driving licence (B) and own car

## Development Experience

**Programming Tutor (private lessons)** Sep 2024 – Jun 2025
*Student of the Multiplatform Application Development (DAM) higher vocational degree*

- Lessons in Java, C# and MySQL throughout the school year, with my own materials and hands-on exercises.

**Full Stack Developer** Jan 2023 – Feb 2024
*Gnuinux Software*

- Developed and optimized features for a web platform for an international client in the vehicle rental sector, using JavaScript, MongoDB, Docker and Git/GitHub.
- API integration and testing with Postman, in a team using Kanban.

**Junior Software Consultant** Jul 2022 – Oct 2022
*Alten Spain*

- Development with Java and Spring Boot on system integration projects for clients.

**Frontend Developer (Internship)** Mar 2022 – Jun 2022
*NTT DATA*

- Improved user interface performance with Angular, JavaScript and TypeScript.
- Tested endpoints with Postman and managed version control with GitHub.

## Projects

**Brivel (brivel.app | github.com/brivelapp/brivel)** 2026 – Present
*Open source (AGPL-3.0) training plan app for endurance sports*

- Shared Kotlin Multiplatform core: an engine that generates running, cycling, swimming and triathlon plans, with a catalog of 57 sessions and over 100 automated tests.
- Native Android (Jetpack Compose) and iOS (SwiftUI) apps, plus a React + Vite web app running the same core compiled to JavaScript.
- Integration with intervals.icu and Apple Health (HealthKit); encrypted sync on Cloudflare Workers and D1; CI on GitHub Actions.
- Initial prototype with a Python (FastAPI) backend and a Next.js frontend.

**Personal Portfolio** (mrclusterman.github.io/gabriel-miralles): website built with Next.js and React, deployed to GitHub Pages with GitHub Actions.

## Education

**Higher Vocational Degree in Web Application Development (DAW)** 2020 – 2022
*IES Pere Maria Orts i Bosch*

## Other Experience

**Sales Assistant**, Atmósfera Albir Sport Sep 2025 – Present
**Shift Manager**, Burger King (promoted from crew member within 2 months) Mar 2025 – Aug 2025
